

蔡劭璞

著作目錄

期刊論文

1. Shao-Pu Tsai, Peter J. Konijnenberg, Ivan Gonzalez, Samuel Hartke, Thomas A. Griffiths, Michael Herbig, Kaori Kawano-Miyata, Akira Taniyama, Naoyuki Sano, Stefan Zaefferer (2022, Sep). Development of a new, fully automated system for electron backscatter diffraction (EBSD)-based large volume three-dimensional microstructure mapping using serial sectioning by mechanical polishing, and its application to the analysis of special boundaries in 316L stainless steel. *Review of Scientific Instruments*, 93, 093707, pp. 1-18. 本人為第一作者.
2. Leonie Gomell, Shao-Pu Tsai, Moritz Roscher, Ruben Bueno Villoro, Peter J. Konijnenberg, Stefan Zaefferer, Christina Scheu, Baptiste Gault (2022, Aug). In-situ nitriding of Fe₂VAl during laser surface remelting to manipulate microstructure and crystalline defects. *Physical Review Materials*, 6, 085405, pp. 1-12.
3. Supriya Nandy, Shao-Pu Tsai, Leigh Stephenson, Dierk Raabe, Stefan Zaefferer (2021, May). The role of Ca, Al and Zn on room temperature ductility and grain boundary cohesion of magnesium. *Journal of Magnesium and Alloys*, 9(5), 1521-1536. (SCI).
4. Shao-Pu Tsai, Surendra Kumar Makineni, Baptiste Gault, Kaori Kawano-Miyata, Akira Taniyama, Stefan Zaefferer (2021, Mar). Precipitation formation on $\Sigma 5$ and $\Sigma 7$ grain boundaries in 316L stainless steel and their roles on intergranular corrosion. *Acta Materialia*, 210, 116822. (SCI). 本人為第一作者、通訊作者.
5. Chih-Yuan Chen, Cheng-Han Li, Tzu-Ching Tsao, Po-Han Chiu, Shao-Pu Tsai, Jer-Ren Yang, Lung-Jen Chiang, Shing-Hoa Wang (2020, Jun). A novel technique for developing a dual-phase steel with a lower strength difference between ferrite and martensite. *Materials Today Communications*, 23, 100895. (SCI).
6. You-Yu Chen, Min-Hsin Yeh, Tsai-Fu Chung, Shao-Pu Tsai, Jer-Ren Yang, Cheng-Che Hsu, Kuo-Chuan Ho, I-Chun Cheng, and Jian-Zhang Chen (2019, Oct). Electrochemical and microstructural investigations of PtFe nanocompounds synthesized by atmospheric-pressure plasma jet. *Journal of The Electrochemical Society*, 167, 056501.

7. Shao-Pu Tsai, Peter Konijnenberg, Stefan Zaeferrer, Nicolas Peter, Baptiste Gault, Kaori Kawano-Miyata, Dayong An, Thomas Alister Griffiths (2019, Aug). Correlative Microscopy Observation (3D EBSD + APT + TEM) on Intergranular Corrosion Behaviors in 316L Stainless Steel. *Microscopy and Microanalysis*, 25(Supplement S2), 748 - 749. (SCI). 本人為第一作者、通訊作者。
8. Cheng-Han Li, Chih-Yuan Chen, Shao-Pu Tsai, Jer-Ren Yang (2019, Mar). Microstructure characterization and strengthening behavior of dual precipitation particles in Cu-Ti microalloyed dual-phase steels. *Materials & Design*, 166, 107613. (SCI).
9. Ming-Yuan Gao, Shao-Pu Tsai, Jer-Ren Yang, Ya-Ling Chang, Takahito Ohmura, Chih-Yuan Chen, Shing-Hoa Wang, Yuan-Tsung Wang, Ching-Yuan Huang (2019, Feb). In-situ transmission electron microscopy investigation of compressive deformation in interphase-precipitated carbide-strengthened α -iron single-crystal nanopillars. *Materials Science and Engineering: A*, 746, 406-415. (SCI).
10. Shao-Pu Tsai, Shih-Ning Tsai, Yu-Ting Tsai, Yu-Wen Chen, Po-Yen Tung, Jer-Ren Yang, Hsueh-Ren Chen, Chih-Yuan Chen, Yuan-Tsung Wang, Ching-Yuan Huang (2019, Jan). The application of convergent beam electron diffraction (CBED) analysis on transformation-induced plasticity (TRIP) steels. *Microscopy Research & Technique*, 82(1), 4-11. (SCI). 本人為第一作者、通訊作者。
11. Shao-Pu Tsai, Yu-Ting Tsai, Yu-Wen Chen, Pin-Jung Chen, Po-Han Chiu, Chih-Yuan Chen, Woei-Shyan Lee, Jien-Wei Yeh, Jer-Ren Yang (2019, Jan). High-entropy CoCrFeMnNi alloy subjected to high-strain-rate compressive deformation. *Materials Characterization*, 147, 193-198. (SCI). 本人為第一作者。
12. Chih-Yuan Chen, Cheng-Han Li, Pei-Herng Liu, Shao-Pu Tsai, Chien-Chon Chen, Jer-Ren Yang (2018, Nov). Precipitation Characterization and Mechanical Behavior in Novel DP Steels. *Materials Science Forum*, 939, 9-15. (EI).
13. Lucia Morales-Rivas, Fady Archie, Stefan Zaeferrer, Miguel Benito-Alfonso, Shao-Pu Tsai, Jer-Ren Yang, Dierk Raabe, Carlos Garcia-Mateo, Francisca G. Caballero (2018, Jul). Crystallographic examination of the interaction between texture evolution, mechanically induced martensitic transformation and twinning in nanostructured bainite. *Journal of Alloys and Compounds*, 752, 505-519. (SCI).
14. Yu-Wen Chen, Yu-Ting Tsai, Po-Yen Tung, Shao-Pu Tsai, Chih-Yuan Chen, Shing-Hao Wang, Jer-Ren Yang (2018, May). Phase quantification in low carbon Nb-Mo bearing steel by electron backscatter diffraction technique coupled with kernel average misorientation. *Materials Characterization*, 139, 49-58. (SCI).

15. Shao-Pu Tsai, Yu-Ting Tsai, Yu-Wen Chen, Jer-Ren Yang, Chih-Yuan Chen, Yuan-Tsung Wang, Ching-Yuan Huang (2018, Jan). Precipitation behavior in bimodal ferrite grains in a low carbon Ti-V-bearing steel. *Scripta Materialia*, 143, 103-107. (SCI). 本人為第一作者.
16. Yu-Wen Chen, Bo-Ming Huang, Yu-Ting Tsai, Shao-Pu Tsai, Chih-Yuan Chen, Jer-Ren Yang (2017, Sep). Microstructural evolutions of low carbon Nb/Mo-containing bainitic steels during high-temperature tempering. *Materials Characterization*, 131, 298-305. (SCI).
17. Jaakko Hannula, Jukka Kömi, David Porter, Mahesh Somani, Antti Kaijalainen, Pasi Suikkanen, Jer-Ren Yang, Shao-Pu Tsai (2017, Aug). Effect of boron on the strength and toughness of direct-quenched low-carbon niobium bearing ultra-high-strength martensitic steel. *Metallurgical and Materials Transactions A*, 48A(11), 5344-5356. (SCI).
18. Shao-Pu Tsai, Te-Cheng Su, Jer-Ren Yang, Chih-Yuan Chen, Yuan-Tsung Wang, Ching-Yuan Huang (2017, Apr). Effect of Cr and Al additions on the development of interphase-precipitated carbides strengthened dual-phase Ti-bearing steels. *Materials & Design*, 119(5), 319-325. (SCI). 本人為第一作者.
19. Shao-Pu Tsai, Chih-Hung Jen, Hung-Wei Yen, Chih-Yuan Chen, Ming-Chin Tsai, Ching-Yuan Huang, Yuan-Tsung Wang, Jer-Ren Yang (2017, Jan). Effects of interphase TiC precipitates on tensile properties and dislocation structures in a dual phase steel. *Materials Characterization*, 123, 153-158. (SCI). 本人為第一作者.
20. 蔡劭璞、楊哲人、王元聰、黃慶淵（2018年09月）。恆溫溫度對於Ti,Ti-Mo添加界面析出物強化型雙相鋼之顯微組織以及機械性質影響。礦冶：中國礦冶工程學會會刊，62(3), 71-77。本人為第一作者、通訊作者。

研討會論文

1. Shao-Pu Tsai, Peter J. Konijnenberg, Zhongji Sun, Stefan Zaeferrer (2022, Sep). Large-volume 3D EBSD studies on selective laser melted 316L stainless steel. MSE 2022, Darmstadt, Germany. 本人為第一作者、通訊作者.
2. Shao-Pu Tsai, Peter J Konijnenberg, Ivan Gonzalez, Samuel Hartke, Thomas A Griffiths, Stefan Zaeferrer, Akira Taniyama, Kaori Kawano-Miyata (2021, Jul). Large-volume 3D EBSD System and Its Application to the Investigation of Grain Boundary Corrosion in 316L Stainless Steel. 5th International Congress on 3D Materials Science (3DMS 2021), virtual meeting. 本人為第一作者、通訊作者.
3. Shao-Pu Tsai, Pin-Jung Chen, Yu-Ting Tsai, Yu-Wen Chen, Chih-Yuan Chen, Jer-Ren Yang (2018, Jun). FeCoNiCrMn (Cantor) alloy under high strain rate

- compression. NANO 2018, City U, Hong Kong. 本人為第一作者、通訊作者。
4. M.Y. Gao, S.P. Tsai, Y.L. Chang, T.F. Chung, J.R. Yang (2017, Nov). In-situ transmission electron microscopy investigation of the deformation behavior of α -ferrite nanopillars in an interphase-precipitation strengthened dual phase steel. IUMRS-ICA 2017, Taipei, Taiwan. The best poster award.
 5. Shao-Pu Tsai, Shih-Ning Tsai, Jer-Ren Yang, Yuan-Tsung Wang, Ching-Yuan Huang (2017, Nov). Effect of bainite transformation temperatures on a low-carbon TRIP-assisted steel and the application of convergent beam electron diffraction (CBED). IUMRS-ICA 2017, Taipei, Taiwan. 本人為第一作者、通訊作者。Excellent poster award.
 6. 蔡劭璞、王元聰、黃慶淵、楊哲人 (2017, Jun). Effect of isothermal holding temperatures on microstructure and mechanical properties of interphase precipitation strengthened dual-phase steels. 台灣顯微鏡學會106年度會議暨第37屆學術研討會, NTU, Taipei. 本人為第一作者、通訊作者。材料物理組論文比賽佳作。
 7. 蔡劭璞、楊哲人、陳志遠、黃慶淵、王元聰 (2017年12月)。恆溫相變溫度對界面析出強化雙相鋼之顯微組織及機械性質影響。台灣金屬熱處理學會2017年會員大會暨論文研討會，南臺科技大學，台南。本人為第一作者、通訊作者。高熱爐業論文獎 傑出獎。
 8. 蔡劭璞、楊哲人、王元聰、黃慶淵 (2017年10月)。恆溫溫度對於Ti、Ti-Mo 添加界面析出物強化型雙相鋼之顯微組織以及機械性質影響。中國鑛冶工程學會一〇六年年會，台灣中油公司探採研究所，苗栗。本人為第一作者、通訊作者。中國鑛冶工程學會論文優等獎 (106年度)。
